National Representative Reporting Forms

National Representative Biannual Activity Report

Every ITNS National Representative will receive these forms by email biannually, (April and October) from the Director of Chapter Development. Information on these forms will assist the Director in reporting news and activities to the ITNS Newsletter Editor and Website Director, as well as address any questions or problems that National Representatives may experience. This is your time to shine! Tell us about your country activities so that we can inform our membership. Information on your country will be updated on the Chapter page of the ITNS Website and may be included in the ITNS newsletter. Please return information within the deadline set by the Chapter Development Director.

National Representatives should notify the Chapter Development Director any time there are changes of phone numbers, e-mail addresses, or mailing addresses. This information will be requested on a biannual basis, as part of the Activity Report and Chapter Update.

ITNS On The Move

Biannually, National Representatives will be requested to report if any of their area members have received a promotion, new degree, have been published, presented at a conference, moved, etc. so that we may share this exciting news with our membership. The form used to complete this report will be e-mailed on a Biannual basis with the biannual report request or it can be found on the ITNS website.
